

Marcus Johansson

Test Consultant på Sogeti Sweden

mackanjohansson91@hotmail.com

Sammanfattning

I have always been interested in computers and technology since i was a little kid. With my job at Point I have been on both sides of Development. Its not all about developing a new software of some kind. You need to test everything to make sure it has good quality before it reach the customer. I now know what the developers want from test department when they reporting a bug eg exact steps, logs etc. And what development department need to deliver more than the software to test eg release notes, specification etc.

The one and a half years i been working at Point Transaction Systems i have been software testing EMV contact payment terminals, two ECR API, Cash Registers, Testcase setup and Performed MasterCard/VISA/AMEX/JCB Brand tests, regression tests etc.

IT Consultant på Lexicon IT-konsult

November 2014 - February 2015 (4 months)

Assignment on company Academdia where i worked as an On-site technician. Acedemedia is a company thats owns alot of schools around Stockholm and a few more in rest Sweden. In cities like Linköping, Västerås and Enköping. But my workarea where Stockholm. So to speak clearly, I had a new office every day.

I worked with:

- Activate Administrator Accounts
- Uninstalling old Office software, Install new Office 2013 software
- Installing virus program SCEP
- Installing OneDrive for Buisness and connect it to local OneDrive folder.
- Createing a VPN connection for Home use
- And most Importantly: Connect the computer to Academdias Domain for future support and help.

When all this where done they get Teamviewer remote desktop client installed automatically for easier support from Academdia head support center.

IT Consultant på Lexicon IT-konsult

March 2014 - November 2014 (9 months)

Test employed (Provanställd) as IT-Consultant, from 1st Mars - 1st November

Still works at Best Transport.

Consultant job at Best Transport Warehouse / It-consult at the Schools of Stockholm.

Job Description during my time at Best Transport:

Best Transport has main charge of Stockholms Stad hardware deployment of new computer equipment to all the Schools in the city and some of the largest Companies like: Rikspolisstyrelsen

I have been on the installation sites to install the new Dell equipment to their right place. I have been most of the time at the warehouse working with installing of software for the new Computers, warehouse sorting and took the initiative to get a truck driving license, so I have been placing pallets in shelves too. And I have been leading a small group of new Lexicon warehouse workers from time to time too.

Volvo IT has the primary responsibility and has taken the help of Dell for computer equipments and Dell has in turn taken the help of Best Transport for warehouse management and transportation to the schools etc. And Best Transport has taken the help of Lexicon IT Consultant for extra workers to the warehouse and technicians on site.

This is one of the worlds biggest hardware deployments.

IT Consultant på Lexicon IT-konsult

September 2013 - March 2014 (7 months)

Permanent employee as IT - Consulting to last December at Lexicon IT-Konsult.

September-October: Consultant job at Best Transport Warehouse / It-consult at the Schools of Stockholm.

Volvo IT has the primary responsibility and has taken the help of Dell for computer equipments and Dell has in turn taken the help of Best Transport for warehouse management and transportation to the schools etc. And Best Transport has taken the help of Lexicon IT Consultant for extra workers to the warehouse and technicians on site.

This is one of the worlds biggest hardware deployments.

Test Engineer (Permanently employed) på Point Transaction Systems AB

September 2012 - March 2013 (7 months)

I was asked after the summercontract got expired if I could stay and work in periods and maybe thereafter get permanently employed. But it lasted to last February 2013. Since I started at Point I have had approximately the same tasks but with growing reliance. I have been working with: Software och Regression Testnings of EMV contact payment terminals, Brand certifications (MasterCard, Visa etc.), ECR och ECR API testing, Testcase writing, hosted educations and started testings of a web interface with Selenium and Python but also Being part of New Projects that could include the whole company.

Systems used: Jira, Zephyr, Confluence

Test Engineer (Summer job) på Point Transaction Systems AB

June 2012 - September 2012 (4 months)

After my trainee time i was asked if i could work over the summer. Same role.

Test Engineer (Trainee) på Point Transaction Systems AB

November 2011 - June 2012 (8 months)

I started working just as the department was moved from Malmö to Stockholm with just one person that followed. So me and him started with a newly recruited manager to create new processes and such things a department need. It was very fun and a interesting opportunity. I worked as a full-time employee almost from the start.

Automated tester (Trainee) på AB Storstockholms Lokaltrafik

November 2009 - February 2010 (4 months)

Second round internship employment via my gymnasium, a total of 16 weeks.

Worked with automated test of the old and new travel planer at their website <http://reseplanerare.sl.se/bin/query.exe/sn> using HPs software Quicktest Professional.

SL has overall responsibility for all people living in, or visiting, Stockholm County should have access to an extensive, easily accessible and reliable public transport.

Intern, Electronics assembler på Frikab AB

November 2008 - February 2009 (4 months)

First round internship employment via my gymnasium, a total of 8 weeks. Frikab is a electronic company that does everything from single circuit boards to assemblings, of whole devices. Very fun and instructive.

Came back for two monts at the summer vocation.
